- ✗ Failure on the GRE
- ✗ Employment after school

Goals

- ✓ Academic Professor/Researcher
- ✓ Working at Ponce

Academic and Professional Background

Pablo graduated from the University of Puerto Rico with a Bachelor of Science in Public Health. During his undergraduate years, he was actively involved in student organizations, including the Sports Medicine Club and Public Health Student Association (PHSA). He also interned with a local sports clinic, gaining hands-on experience working with athletes. Pablo’s coaching experience at both the academy and local levels as well as his involvement at his local library to promote educational resources in San Juan further demonstrates his commitment to his community.

Personal Life and Aspirations

As a former competitive soccer player in high school and college, Pablo has firsthand experience with sports injuries and the importance of proper medical care. His long-term vision is to become an epidemiologist, excelling in his field and making a meaningful impact on his community in Puerto Rico. He aims to help locals gain knowledge on resources for personal and global health in a clinical setting. As a native of Ponce, Pablo is well aware of the city’s pride in its academic achievements and aspires to work for Ponce Health Sciences University (PHSU) in the future.
